

The ARC 600 is designed to replace high intensity discharge (HID) fixtures commonly used in greenhouse applications. Utilizing high efficiency broad spectrum LEDs, the ARC 600's light is ideal for sole source and supplemental growing. The simple and efficient design significantly reduces manufacturing expenses allowing Drive Lighting to produce a high performance and cost effective HID replacement luminaire.

Product Dimensions:

Product Specifications:

Dimensions: 14.5(L) x 10(W) x 9(H)

Weight: 24lbs

LEDs: Bridgelux COB Vero 29 G7

LED Spectrum: 4000K - 80CRI , 3500K - 93+CRI

Lensing: Custom / swappable

IP Rating: Suitable for greenhouse applications

Cooling: active AC fans - IP 65 sealed

Driver: Mean Well HLG-600H-42A

Dimming: No

Power Draw: 550 Watts (at wall)

Power Factor: > 0.95

AC Input: 90-305 VAC - DC Output: 38 VDC
